ATTORNEY

UNITED STATES PATENT OFFICE.

HARRY NORTHWOOD, OF WHEELING, WEST VIRGINIA.

DESIGN FOR A TUBE-RECEIVING PEDESTAL FOR FLOWER-STANDS.

49,852.

Specification for Design.

Patented Nov. 7, 1916.

Application filed March 17, 1916. Serial No. 84,981. Term of patent 7 years.

To all whom it may concern:

Be it known that I, HARRY NORTHWOOD, a citizen of the United States, residing at Wheeling, in the county of Ohio and State of West Virginia, have invented a new, original, and ornamental Design for Tube-Receiving Pedestals for Flower-Stands, of which the following is a specification, reference being had to the accompanying drawing, in which the figure is a perspective view of my tube-receiving pedestal for flower-stands.

It will be noted that widely varying forms of bases other than the herein-depicted bowl-like base for the upright portion of the pedestal may be employed without changing the design.

I claim:

The ornamental design for a tube-receiving pedestal for flower stands, as shown.

HARRY NORTHWOOD.

Witnesses:

H. E. DUNLAP,
W. F. KEEFER.
